I am excited to be returning to software development after having taken some time away to explore working as a lawyer. Although I enjoyed the legal work, I find the puzzle solving nature of software development more intellectually satisfying, and plan to work as a developer for the remainder of my career.

I previously worked for three years as a full-stack web developer with a large health care software company. I am comfortable working on enterprise level software, while maintaining a focus on scalability and security. I have management experience and work well by myself, but I am most excited to join a team of people who also love designing, programming, and a whole lot of bug crushing.

Education

University of New Mexico School of Law, Albuquerque, NM
Juris Doctor, summa cum laude, May 2020

Vassar College, Poughkeepsie, NY
Bachelor of Arts, Computer Science GPA - 3.71, Overall - 3.53, May 2014

Development Experience

Epic Systems; Verona, WI

Software Developer July 2014-May 2017

Team Lead Software Developer June 2015- September 2016

- Full stack web developer using JavaScript and then Typescript for client-side interactions, C# .NET for server management, and SVN for version control.
- Transitioned existing functionality from Visual Basic into a web platform.
- Supervised team members to ensure their workload was fair and achievable, as well as helped plan their professional growth.
- Drafted a vision for where the software should be heading in the next few years and refined this vision through meetings with upper management and our customers.
- Was the top bug fixer by volume most months on a team of 20-30 developers.

Software Development Intern May 2013-August 2013

- Created an iOS messaging prototype in Objective-C so that providers could securely communicate with other members of patients' health-care teams.

Vassar College; Poughkeepsie, NY
Computer Science Department Laboratory Coach (September 2011-September 2012)

Other Experience

Parnall Law Firm, LLC.; Santa Fe, NM

Associate Attorney October 2020-Present

- Managed a caseload of 100-150 cases, keeping them moving through the process and ensuring that all deadlines were met.
- Supervised the work of 5 to 6 support staff.
